Experiencing the multi faceted life on canvas and diving into virtual world relishing hot popcorn without having to leave your place is a joyous time that all of us cherish . We share our emotions with those on canvas completely oblivion of our real world . We laugh , we cry and at times, get goosebumps with display of daring adventurous shots but cherish every moment

!Keeping this in mind, DPS BALLABGARH organised a recreational field trip to Silver city for a special screening of the movie "Lyle , Lyle Crocodile "A crocodile can't live in a house... can it? Lyle, Lyle, Crocodile asks that very question when the Primm family moves into their new New York apartment to find a crocodile living in the attic. Oh, and it can sing, too. It's a cute, quirky tale about finding your place in the world. Lyle, Lyle, Crocodile has bags of charm and some ludicrously catchy songs. It was exhilarating experience for the little kid to watch the movie with their peer group and Teachers. The movie was a significant break from their daily routine and a great learning experience for them.

Excursion to National Science Museum by DPS BALLABGARH

"Science is a way of thinking much more than it is a body of knowledge."

CARL SAGAN

The National Science Centre Delhi, as its name suggests, is one such Government initiative to inculcate an interest & love of science and technology in children as well as people of all ages.

Keeping in view the aspiration after an interface with science & its activities ,D.P.S Ballabgarh organised an educational excursion to the National Science Museum, Pragati Maidan, Delhi for class 6th to 12th students on 14th Nov'22, under the supervision of Teachers .

National Science Museum is one of the largest science centres in the country, was set up to tempt children to explore science by making it fun. It consists of an array of working,

science models, which can be operated by the little visitors themselves. These are intended to make the children comprehend in a hands-on way, the basic principles of how things work. Numerous scientific instruments

were on display in the museum. Divided into a number of galleries, each gallery is dedicated to a distinctive theme and contains several exhibits, which are based on the different scientific laws and theories. Students start to learn

about as they witness practical demonstrations.

The most intriguing models are those exhibited in the Human Biology Gallery. Another popular gallery is the Dinosaur Gallery and proceeded to a hall where scientific tricks/ games were available for the children to try for themselves.

Later, we were ushered to a section which contained models explaining the evolution of man. Also models of a variety of species displayed in a mock natural habitat.

It is a great place for science enthusiasts, a place where children and adults can all marvel at the miracle of science.

The children returned reluctantly after an invigorating morning edutainment. Overall it was a great learning experience for the students & was thoroughly enjoyable at the same time.

An Excursion to Museum of Illusion

Life may be a race Let them follow their pace "If a picture is worth a thousand words, be sure that an illusion hides more than a million." Delhi Public School Ballabgarh took an initiative to organise an educational excursion to Museum of Illusions on the occasion of children's day. Apparently, the Museum of Illusions is a home to a collection of immersive, interactive, and distinctly incomprehensible exhibits that are based on science, math, and psychology. The students of class 6th to 12th had an enthralling experience. The little learners were prompted to

learn more about the tricks of perception, and the manner in which the human brain works as one progresses, through each exhibit. The museum offered visual, photographic, and interactive illusions that blew everyone's mind away! Amusing and awesome tricks paired with different illusions helped the learners to understand how perception is influenced by science, vision, and stimuli that the human mind receives. The visit to the playroom with intriguing and educational games and puzzles was certainly a fun learning experience. It was indeed a great amalgamation of learning with entertainment.

Fancy Dress Party "Theme - Domestic Animals" by Pre - Primary Wing

Life is one big fancy dress party. It is an art of wearing an amazing or unique costume as a part of a

Domestic Animals and humans form an ecosystem where they are co-depend on each other and help one another in different ways, it is our core responsibility to make sure that this ecosystem is balanced and stay healthy. It was a very interesting and fun filled activity where children dressed up like goat, cow, hen and many more. It was overwhelming to see our tiny stars speaking confidently. Everyone participated with full enthusiasms and the efforts put by all the participants were highly complemented by all.

PARENTS' FEEDBACK

Hi! I am truly glad to take admission of my son Daksh Goyal in 2022-23 batch. Our experience is absolutely satisfactory. All teachers always personally connected their participation in the class. There is a perfect mix of academics and other activities. In the previous school, Daksh didn't clear his doubts at all because of which he was not able to give his 100%. But here, in this school, all the teachers made him feel so comfortable and he asks all his doubts with no hesitation, due to which he is doing great in all subjects. Looking forward for another fantastic and productive year ahead.

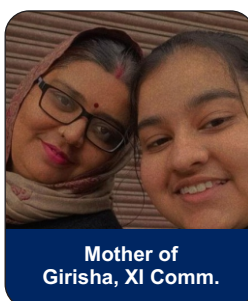

MS. SEEMA GOYAL M/o Daksh Goyal, 11th Com.

DPS Ballabgarh has offered a great learning ground for my child. In the last one year that he has studied there, I have witnessed positive changes in his aptitude as the school has given him opportunities to explore himself and his skills. Inter-school events have infused another level of confidence in him. All the teachers/staff members have been very supportive and friendly. That's how the students create a bond with them and feel they belong to the school at large.
